

## FREE FOCUS SPECIAL TASTER DAY AND CHRISTMAS LUNCH - THURSDAY 10th DECEMBER 2009

We would very much like to invite you to round off the year with a rewarding and valuable day with the team here at Focus, to learn some techniques that will help both you and your organisation to excel.

### “Practise is more important than talent”

Create a “practise whilst you work culture” in your organisation and develop great performers and leaders. (Experience - based leader development)

- ❖ Do you and your organisation learn from the harsh experiences you have overcome? - All of those lessons are free and frequent, both in work and in your personal lives.
- ❖ Develop a culture where people practise, seek feedback, reflect, learn and improve. A culture where your people become more effective mentors and coaches.

This session is based on the work of Robert J Thomas and his book  
“The Crucibles of Leadership”

### NLP in Business - Introducing you to two powerful techniques to help you plan for a great 2010

- ❖ The “Power of Timelines” to achieve your goals and learn from your experiences in 2009
- ❖ Walt Disney’s Creative Planning Framework

kindest Regards

Lynda Williams (Business Development)

*Numbers are limited this year, so please email back the response form to book your place/s as soon as possible.*
